## KEY SKILLS

- Java, Kotlin, Dart
- Liferay
- Rest API (Consume & Produce)
- Git, GitHub
- RDBMS, Firebase, SQLite, MongoDB
- Google Maps API
- Eclipse
- NetBeans
- MS-Office
- HTML, jQuery

## WORK HISTORY

- Company:** Newgen Software  
**Duration:** 25 June 2021 to 30 November 2021  
**Position:** Senior Software Engineer
- Company:** Tata Consultancy Services  
**Duration:** 28 February 2019 to 31 May 2021  
**Position:** Software Engineer
- Company:** Jnext Development  
**Duration:** 1 June 2018 to 20 December 2018  
**Position:** Android Developer

## PROJECT EXPERIENCE

| <u>Project</u>          | <u>ICICI Bank INDIA – Bank Loans</u>  |
|-------------------------|---|
| <b>Project Synopsis</b> | ICICI Bank Loan process flow managed by Omni products to create end to end process flow to manage loan/credit cards documents smartly. I was responsible for creating new features and process flow for the various loan departments.   |
| <b>Responsibilities</b> | <ul style="list-style-type: none"> <li>▪ Lead the new features activities which involved end-to-end process starting from initial brainstorming requirement analysis, identifying scope and scenarios.</li> <li>▪ Create and maintain bank loans/credit cards process flow in Omni Products (iBPS) in Java.</li> <li>▪ Design and run integration tests (JUNITs) and final signoffs</li> <li>▪ Participate in Scrum meetings, fulfill external customer calls, and communicate with external stakeholders (ICICI Bank partners) to finalize requirements.</li> <li>▪ Design and maintain process flow for <b>Home Loans</b>, <b>Auto Loans</b>, <b>Personal Loans</b> and <b>Credit Cards</b>.</li> </ul> |
|                         |   |
| <u>Project</u>          | <u>Lenovo Partner Hub</u>   |
| <b>Project Synopsis</b> | The Lenovo Partner Hub is a site that links business vendors to Lenovo to help them grow their businesses together. For partners to learn about all Lenovo products in one location, check out the Lenovo Partner Hub's extensive product catalogue. Quick and simple method for downloading asset information that aids partners in closing deals for products, expertise, and training.   |
| <b>Responsibilities</b> | <ul style="list-style-type: none"> <li>▪ Analyze new requirements &amp; change requests for the Lenovo Partner Hub.</li> <li>▪ Feature/enhancement and provide detailed report in <b>scrum meetings</b>.</li> <li>▪ Development of multi sites for <b>APAC/EMEA/LAD/NA</b> regions in <b>Liferay DXP</b> (Java Framework)</li> <li>▪ Create robust and reusable code in Java and write unit test cases (Junits).</li> <li>▪ Agile methodology used to for Project Development,</li> <li>▪ I designed some critical features and responsibility to deliver in given timeline which is achieved successfully.</li> </ul>  |
|                         |   |

| <u>Project</u>          | <u>Pfizer</u>   |
|-------------------------|---|
| <b>Project Synopsis</b> | Pfizer and Tata Consultancy Services (TCS) are major partners in digital transformation in Life Science & Healthcare industry. TCS provides supports to digitalize products of Pfizer to various digital platforms. TCS digitalize the platform to upload products on ecommerce platforms like <b>Amazon, Walmart, eBay etc.</b>  |
| <b>Responsibilities</b> | <ul style="list-style-type: none"> <li>▪ Modify Pfizer product details and create filters.</li> <li>▪ Agile methodology was used throughout the project, and tools for automating the deployment of all Pfizer products to different e-commerce platforms were created.</li> <li>▪ Create functional feature to deploy all the products via automation tool.</li> <li>▪ Add extension feature to the Excel for the filtering huge amount of data.</li> <li>▪ I worked in huge team and maintained team growth and product deliverables as per timelines.</li> </ul> |
|                         |   |
| <u>Project</u>          | <u>Instagram Clone</u>  |
| <b>Project Synopsis</b> | Instagram clone was an Android Application which is developed to download media files from the Instagram and provide high quality user interface to users. Instagram was providing data API, but it was not exposing direct media files to the users.   |
| <b>Responsibilities</b> | <ul style="list-style-type: none"> <li>▪ To create entire project into Kotlin (Android)</li> <li>▪ Design attractive user interface which provides new functionality like download and save media files to local devices.</li> <li>▪ Add compatibility to work in every device and work smooth.</li> </ul>  |
